

Privacy policy

LAST UPDATED 24 JULY 2026

Short version: the audit form is the only thing on this site that collects anything, what you send is used to run your audit and reply to you, and it is never sold or added to a list. The long version follows.

01

Who this is

Frontage Studio is a one-person web design and local search studio based in Columbus, Ohio, operated by Ibrahima Moses Diouf. There is no team, no parent company, and no third party with access to this site's records other than the service providers named below.

Questions about anything here: moses@frontagestudio.co.

02

What this site collects

Only what you type into the audit request form: your name, your business name, an email address or phone number, optionally your city or a link to your Google listing, and an optional note about what you already know is wrong.

That is the entire list. This site has no accounts, no logins, no shopping cart, and no payment processing.

03

What this site does not collect

This site sets no cookies of its own. It runs no advertising, no retargeting pixels, and no cross-site tracking. No profile is built about you, and nothing you do here follows you to other websites.

04

Analytics

Visitor numbers are measured with Cloudflare Web Analytics, which records page views and which pages visitors reach. It is cookieless, does not fingerprint your device, reports only in aggregate, and cannot follow you across other sites.

05

Who else handles your information

Running a website means a handful of service providers touch data on the way through. These are all of them:

Formspree receives your form submission, stores it, and sends a notification. Cloudflare provides the domain routing, hosting, and analytics. The studio email provider stores correspondence once a conversation starts.

Short version: the audit form is the only thing on this site that collects anything, what you send is used to run your audit and reply to you, and it is never sold or added to a list. The long version follows.

Google Fonts serves the typefaces this site uses, which means Google's servers receive your IP address as part of loading the page.

None of these providers is given permission to use your information for their own marketing.

06

What your information is used for

To run the audit you asked for and to reply to you about it. Nothing else.

Your information is never sold, rented, traded, or added to a marketing list. You will not receive a newsletter you did not ask for.

07

How long it is kept

Audit requests are kept while the conversation is active and afterwards as an ordinary business record. Ask for it to be deleted and it will be deleted, along with the copy held in Formspreet.

08

Your choices

Write to moses@frontagestudio.co to ask for a copy of what is held about you, to correct it, or to have it deleted. Requests are answered within 30 days.

Depending on where you live you may have additional rights under your local data protection law. Those rights are honoured regardless of where you are.

09

Children

This site is aimed at business owners and is not directed at children. Please do not submit information through this site if you are under 16.

10

Changes to this policy

The date at the top of this page is the last time it changed. If something material changes, the new version is posted here.
